

CERTIFICATE OF COMPLIANCE

TO WHOM IT MAY CONCERN

As manufacturers of Carltsø Safety Tools, we hereby certify that the Tools made from Cupper Beryllium alloy provides Non Sparking, Non Magnetic, Non Corrosive and tough properties, wich will give compliance to the following requirements:

Physical Properties

Hardness 35-42 HRC

Tensile strength-break

1140-1300 N/mm

Specific Gravity at 70° F 8,05 min.

Melting range (°F) 1575-1750

Chemical Composition

as per specification from foundry:

Be: 1,8-2,1% **Co+Ni:** max. 0,6%

Others max.: 0,5%

Cu balance
